

My Long-Term Commitment - Part 1

Millions of babies are dying from abortion. Millions of people think this "choice" is fair. **Millions of "pro-lifers" are not equipped to defend life.**

Here's what I'm going to do about these facts. **I may work to end abortion and train strong pro-life advocates the rest of my life.** For now though, I am committing to work for Justice For All (JFA) indefinitely and I want you to consider helping me.

My unwavering determination and commitment stems from the above facts and because God has provided me with the skills and determination to help JFA with its mission. God has also given me endurance to deal with pressure on campus and extensive traveling.

I am committed to continue to trust God for the skills, resources, and endurance to help JFA with it's mission. **Please consider partnering with me long term (see reverse).**

Below are four ways I will be helping JFA accomplish its mission to *train thousands to make abortion unthinkable for millions, one person at a time.* (Four more will be in "pt-2" next month).

Below: Anna Parham (Statham,GA) has a conversation with a pro-choice women on the UGA campus whom she has since emailed!. **At right:** After watching them talk I mentor Anna by asking the woman some questions of my own and by helping Anna navigate through this particularly difficult conversation. I would later, at some length, discuss with Anna what we learned from it.

- **I challenge pro-choice students** to reconsider their position as they are confronted by the reality of abortion. I get to personally challenge **15-30 people per campus!** Nicole (in red at left and above) was one of the many from the University of Georgia.

- **I mentor pro-life students** like Anna Parham (at left and above) as they go through our training program. I help as a **group leader** in the seminars (part 1) and I also work with the trainees during our campus outreach (part 2). I set an example for them, give them tips, help them relax, and **help them work through tough conversations.** I mentor 15-20 per outreach!

It will take an eternity for the unborn to defend themselves

- **I motivate pro-lifers like Megan Wells (UGA Sophomore shown below) towards wise action on behalf of the unborn and I give them helpful action steps. She thanked me for coming to her campus to share the truth but admitted that she did not feel equipped to make an impact herself! I gave her several resources for study,**

Megan Wells (UGA) realized the many things she CAN do to stop abortion and help women in crisis pregnancy.

walked her through how to use our brochure, encouraged her to join the local pro-life club, and gave her my email in case she needed further direction. Megan will be at UGA until 2011 so she will have many

chances to continue to impact others with the truth. She has already committed to continue learning how to challenge other pro-lifers around her to join her in reaching out to the UGA community.

- **I motivate family and friends (in California, Kansas, and around the U.S.) to make a difference in the abortion controversy in their community. I use these newsletters, bi-weekly emails, educational updates, and mentoring phone calls or emails to help hundreds of people to increase their effectiveness in this vital area. The "Developing Heroes Instead of Spectators" (Jan — Mar 09) was just one of the many teaching tools designed to train people to challenge pro-choice folks in a loving way and to motivate pro-lifers towards bold and wise action. I am committed to helping each of you grow to be impact players in this important area. Millions of pro-lifers must be trained to train others!**

If you are already supporting me financially in 2009 thank you so much! If not then please prayerfully consider helping me continue this work long term. Please review my support update (enclosed).

Verses that continue to motivate me:

James 1:27 "Pure and undefiled religion in the sight of our God and Father is this: to visit orphans and widows in their distress, and to keep oneself unstained by the world." (NASB)

James 1:19b "But everyone must be quick to hear, slow to speak and slow to anger;" (NASB)

Please pray that I can live out these two verses as I travel with JFA to California for our Pasadena and San Diego trainings and outreaches (May 14-28). Pray also for many hearts to be changed and lives to be saved.

Defending Human Value together,

Jonathan Wagner
